GROUP INTRODUCTION

Trans Fast Group began its journey in 2011 with a clear objective is to make business movement more reliable, coordinated and accessible.

Starting with logistics and supply chain services, the organization gradually developed its capabilities across Freight Forwarding, Shipping Agency Operations, NVOCC services, Customs Clearance, Inland Transportation, Transit Trade, Project Cargo, Warehousing and Specialized Logistics.

As the organization grew, its vision expanded beyond logistics. Trans Fast Group developed a diversified business structure that now includes companies operating in logistics and shipping, security and surveillance, textile trading and minerals trading.

The Group provides a unified platform through which specialized companies can grow independently while benefiting from shared values, management direction, operational knowledge and commercial relationships. Our journey is defined by steady growth, practical experience and a strong commitment to fulfilling every responsibility with clarity and professionalism

Steady growth, practical experience, one platform.

OUR **VISION**

To become a trusted diversified group connecting markets, protecting assets and enabling sustainable growth across regions worldwide.
